N.B.—As it has been found necessary to work into the cost of living indices, the actual increased costs relating to Soji, vegetables and readymade coffee in the food group and all the ten items in the Miscellaneous group, they have been treated as variables. From July 1946 onwards the index numbers will be compiled on this revised basis.

(a) The actual prices during the current month are quoted and the corresponding percentage relatives are worked out.

(b) The average monthly expenditure per family as ascertained during the family budget survey is noted against each item and the index number is quoted to 100.
